Vienna, June 10.

WE have Letters from the Court of the Prince of Walachia of the 15th and 19th of May, as also from Bender of the 17th of May, which advise that the Ottoman Porte had caused Orders to be dispatched to all the Balhaws to repair to Bender, because the general Rendezvous of the Turkish Army is appointed to be there. That the Preparations of War are indeed continued, and that the Army will take the Field, but that 'tis uncertain whether War or Peace will ensue, because the Temper of the Grand Signior occasions perpetual Confusion and Perplexity in his Affairs. That one while the Sultan looked favourably on the Czar's Ambassadors and disgusted the King of Sweden, and another while he caressed the latter and mortified the Muscovites; so that none could tell what to judge. That the King of Sweden continued at Deminesck within half a League of Adrianople, where the French Ambassador visited him frequently, and procured him Remittances of Money by the French Merchants in Turkey. That the Muscovite Ministers were at full Liberty at Adrianople; that they had found Means to deliver with their own Hands a Memorial to the Grand Signior, as he was going to the Mosque on Horseback, the Contents of which Memorial were, That the Czar had concluded a disadvantageous Treaty of Peace with the Porte in his Distress, and that after having got out of the Necessity of performing what extreme Danger had made him promise, he has restored and executed what was stipulated from him, to the end the Sultan on his part might be induced to keep his Word, which obliges him to maintain the Peace, and to dismiss the King of Sweden out of his Dominions; that if notwithstanding all this, the Sultan would needs renew the War, and violate a Treaty which has been so advantageous to him, he was Master of his own Actions; but that the Czar had all Reason to promise himself the divine Blessing on his Arms, being perswaded all the Justice of the Cause is on his Side. The Sultan having read this Memorial appeared much disturbed, and afterwards held a long Council with his Ministers upon it, but the Result was not yet known.

Hague, June 23. This State appears very much dissatisfied with the Elector Pala-

tine, upon his having caused his Troops to take Possession of the little Town of Ercklens in the Dutchy of Gelderland after the King of Prussia had withdrawn his Troops out of it. The States pretend, that by Virtue of their Treaty of Peace with France they ought to have the keeping of all that the Emperour is to have in the Netherlands, till the Conclusion of his Imperial Majesty's Peace with the Crown of France. But the Count d' Eiffern Minister of his Electoral Highness answers, that this Pretention of the States must not be understood to extend further than to the Countries of which their High Mightinesses were in Possession before the Peace with France, or to those which that Crown has evacuated to them; and as the Town of Ercklen and its Territory come not under either of those Cases, and his Master having taken Possession of it on the Instances of his Imperial Majesty, with an Intention to keep it by Cession from his said Majesty, this State have nothing to say to it. 'Tis believed this Affair may have Consequences, and that France will take Revenge for it on the Country of Juliers. The Evacuation of Luxembourg is not yet performed; and we are in some Pain about it, because the Prussian Troops have newly done military Execution in that Dutchy, to oblige the Inhabitants to pay Contributions, which makes it feared that France may make it a Pretext for refusing or at least deferring to give up the said Town of Luxembourg: However, we are newly informed that the French have promised it shall be delivered up the 26th of this Month. Mean while we are not well pleased here, that in Namur there are 3000 Persons who pretend to pass for Domesticks of the two Electors of Cologne and Bavaria, and that the latter claims a Right to enter that Town and others of the like Nature with his Guards as often as he pleases. The Baron de Carg Minister of the Elector of Cologne, now here, insists jointly with the Deputies of Liege, that the States withdraw their Troops out of the Citadel of Liege, and even out of Huy; and he pretends that his Master may repair to and reside freely in the City and Bishoprick of Liege, as a Country which he supposes to be neutral.
